**TITLE 14. SAN FRANCISCO BAY  
CONSERVATION AND DEVELOPMENT  
COMMISSION**

**Notice of Intention to Amend the Conflict of  
Interest Code Of the San Francisco Bay  
Conservation And Development Commission**

NOTICE IS HEREBY GIVEN that the San Francisco Bay Conservation and Development Commission intends to amend its conflict-of-interest code pursuant to Government Code Section 87306. Pursuant to Government Code Section 87302, the code designates employee positions that must disclose certain economic interests and avoid participating in the making of governmental decisions affecting those interests. The amendments make no changes to disclosure categories and do not delete any positions.

The Commission has established a written comment period that opens on August 8, 2007 and closes at 5 p.m. on September 24, 2007. Any interested person may present written comments concerning the proposed code no later than September 24, 2007, to the contact person listed below at:

San Francisco Bay Conservation and Development  
Commission  
50 California Street, Suite 2600  
San Francisco, CA 94111

or at the conclusion of the public hearing, if any, whichever comes later. No public hearing on this matter will be held unless an interested person or his or her representative requests a public hearing. The request must be made no later than August 9, 2007 (no later than 15 days prior to the close of the written comment period).

The San Francisco Bay Conservation and Development Commission has prepared and made available the proposed amendments to the code and a written explanation of the reasons for the designations and has available all of the information upon which its proposal is based. Copies of the proposed amendments, the writ-

ten explanation of the reasons, and the information on which the amendments are based may be obtained by contacting the contact person listed below.

**Contact Person.** All inquiries concerning the proposed amendments and any communication required by this notice should be directed to Ellen Sampson at 415-352-3610 or [ellens@bcdc.ca.gov](mailto:ellens@bcdc.ca.gov), or at the address listed above.

**TITLE 17. CALIFORNIA AIR  
RESOURCES BOARD**

**NOTICE OF PUBLIC HEARING TO  
CONSIDER ADOPTION OF A REGULATION  
TO LIMIT OZONE EMISSIONS FROM  
INDOOR AIR CLEANING DEVICES**

The Air Resources Board (the Board or ARB) will conduct a public hearing at the time and place noted below to consider adoption of a regulation establishing emission standards and certification, labeling and recordkeeping requirements for indoor air cleaning devices introduced into commerce in California that are used in occupied spaces. The proposed regulation would, among other things, require that such devices be tested and certified not to emit ozone at an emission concentration in excess of 0.050 parts per million (ppm), and prohibit the introduction into California of such devices that exceed this emission standard.

DATE: September 27, 2007

TIME: 9:00 a.m.

PLACE: South Coast Air Quality Management  
District  
Auditorium  
21865 East Copley Drive  
Diamond Bar, CA 91765-4182

This item will be considered at a two-day meeting of the Board, which will commence at 9:00 a.m., September 27, 2007, and may continue at 8:30 a.m., September 28, 2007. This item may not be considered until September 28, 2007. Please consult the agenda for the meeting, which will be available at least 10 days before September 27, 2007, to determine the day on which this item will be considered.

For individuals with sensory disabilities, this document is available in Braille, large print, audiocassette or computer disk. Please contact ARB's Disability Coordinator at (916) 323-4916 by voice or through the California Relay Services at 711, to place your request for disability services. If you are a person with limited English and would like to request interpreter services, please contact ARB's Bilingual Manager at (916) 323-7053.

**INFORMATIVE DIGEST OF PROPOSED ACTION  
AND POLICY STATEMENT OVERVIEW****Sections Affected**

Proposed adoption of new sections 94800, 94801, 94802, 94803, 94804, 94805, 94806, 94807, 94808, 94809, and 94810, title 17, California Code of Regulations. The final revised 2007 American National Standards Institute/Underwriters Laboratories, Inc. (ANSI/UL) Standard 867 and ANSI/UL Standard 507 for mechanical devices, would be incorporated by reference. Ozone emissions would be determined using the final 2007 revision of Section 37 of ANSI/UL Standard 867. The current revised version that is still undergoing ANSI/UL approval is dated June 22, 2007; the final revised Section 37 is expected to be approved in fall 2007.

**Background**

A number of manufacturers sell devices represented to be air purifiers or air cleaners, which in fact purposefully generate large quantities of ozone, the primary component of photochemical smog. Operation of these devices, also known as “ozone generators,” in occupied spaces has been known for some time to cause unhealthy ozone exposures, that is, exposure to elevated room ozone concentrations above the health-based state and federal ambient air quality standards for ozone. Currently, Canada does not certify any type of intentional ozone-generating air cleaners for residential use.

Other common types of air cleaners include electrostatic precipitators (ESPs), ionizers, and mechanical filter devices. ESPs and ionizers may emit ozone as a byproduct of their functioning, although the levels are usually much lower than those produced by ozone generators. Mechanical filter devices emit little or no ozone.

Exposure to ozone is a public health concern. Ozone is a highly reactive molecule composed of three atoms of oxygen, and can damage the lungs and airways. Ozone inflames and irritates respiratory tissues, and can worsen asthma symptoms. Ozone exposure can cause coughing, chest tightness and impaired breathing. Elevated exposures have the potential to induce permanent lung damage, and chronic ozone exposure can increase the risk of premature death in persons with poor health. Ozone can also damage plants, fabrics and building materials such as paint, walls, and flooring. Ozone is a primary component of photochemical smog, and has been recognized and regulated as an outdoor air pollutant for many years. The current California outdoor air quality standards for ozone are 0.09 ppm (averaged over one hour) and 0.070 ppm (averaged over eight hours).

The market for air cleaning devices, particularly for residential use, has grown as public concern over indoor air quality has increased. Annual sales of air cleaners

have surpassed \$400 million nationally. A recent survey found that 14 percent of California households currently own an air cleaner or owned one during the past five years. An estimated 828,000 California residents reside in the approximately 2 percent of households that own an ozone generator, while about 2.8 million people live in the approximately 8 percent of households that own an air cleaner that may emit ozone as a by-product.

In 2006 the Legislature passed Assembly Bill 2276 (Pavley) which was signed into law by Governor Schwarzenegger (stats 2006 ch 770). The legislation enacted Health and Safety Code sections 41985–41986, which direct ARB to regulate ozone emissions from portable air cleaners sold in California that are used in occupied spaces by December 31, 2008.

**Description of the Proposed Regulatory Action**

The regulation proposed by staff (the proposal) would require that indoor air cleaning devices used in occupied spaces that are introduced into commerce in California must not emit a concentration of more than 0.050 ppm of ozone. The proposed regulation would specify requirements for testing, labeling, certification and record-keeping, and establish specific exemptions as described below.

The proposal would apply to any person or entity who manufactures, sells, supplies, offers for sale, or introduces into commerce into California indoor air cleaning devices that are used in occupied spaces. Under the proposal, indoor air cleaning devices could not be manufactured for use in California 12 months after the effective date of the regulation (“manufacture date”), nor could they be sold, supplied, offered for sale or introduced into commerce in California 9 months after the manufacture date (“sell-through date”), unless the devices are certified by ARB.

Under the proposal, an application for certification of an indoor air cleaning device would be submitted to ARB by a manufacturer, or by a professional association or certification organization on behalf of a manufacturer. Application information would include manufacturer contact information, specified details about the brand and model of the air cleaning device, and specified details about the testing conducted on that model device. All indoor air cleaning devices, unless exempted, would be tested following the ANSI/UL Standard 867, or ANSI/UL Standard 507 for mechanical devices. Ozone emissions would be determined using the 2007 revision of Section 37 of ANSI/UL Standard 867. All testing must be performed by a Nationally Recognized Testing Laboratory (NRTL) recognized by the U.S. Occupational Safety and Health Administration, or by an approved NRTL Program 2 independent laboratory. An appropriate certification mark or listing mark would be shown on each device once that model

passes the test. Devices certified for use in California would also have to display a certification label on the product packaging. Specific wording would be required for non-medical devices, while medical devices must be labeled in accordance with federal law.

Specific industrial uses for air cleaning devices as defined would be exempt from the proposed requirements. Also, devices designed to be integrated into heating and air conditioning systems (e.g. "in-duct" systems) would be exempt from the proposed regulation at this time. However, these exemptions may be re-evaluated by ARB at a future time. Additionally, based on their known *de minimis* ozone emissions, indoor air cleaning devices using only mechanical filtration would be exempt from the ozone testing requirements after certain required documentation is submitted, but such devices would still have to be tested for electrical safety, and would be subject to labeling requirements.

Finally, under the proposal, manufacturers, distributors, retailers, sellers and testing laboratories would have to maintain production, quality control, sales and testing records for at least three years, and make them available to ARB upon request.

#### COMPARABLE FEDERAL REGULATIONS

Health and Safety Code section 41986 requires that the proposed regulation be consistent with federal law. The U.S. Food and Drug Administration has promulgated a maximum acceptable level of ozone of 0.05 ppm for medical devices, as well as certain labeling requirements (21 CFR § 801.415). The emission standard in the proposed regulation is equivalent to the federal limit of 0.05 ppm, as required. Health and Safety Code section 41986 also requires that an indoor air cleaning device that is a medical device shall be labeled in compliance with federal law, including Section 801.415 of Title 21 of the Code of Federal Regulations.

#### AVAILABILITY OF DOCUMENTS AND AGENCY CONTACT PERSONS

The ARB staff has prepared a Staff Report: Initial Statement of Reasons (ISOR) for the proposed regulatory action, which includes a summary of the potential environmental and economic impacts of the proposal and supporting technical documentation. The report is entitled: "Staff Report: Initial Statement of Reasons for the Proposed Regulation to Limit Ozone Emissions from Indoor Air Cleaning Devices."

Copies of the Staff Report and full text of the proposed regulatory language may be accessed on the ARB's web site listed below, or may be obtained from the Public Information Office, Air Resources Board, 1001 I Street, Visitors and Environmental Services

Center, 1<sup>st</sup> Floor, Sacramento, CA 95814, (916) 322-2990 at least 45 days prior to the scheduled hearing on September 27, 2007.

Upon its completion, the Final Statement of Reasons (FSOR) will be available and copies may be requested from the agency contact persons in this notice, or may be accessed on the ARB's website listed below.

Inquiries concerning the substance of the proposed regulation may be directed to the designated agency contact persons, Ms. Peggy Jenkins, Manager of the Indoor Exposure Assessment Section, at (916) 323-1504 or by email at [mjenkins@arb.ca.gov](mailto:mjenkins@arb.ca.gov), or Mr. Chris Jakober, Air Pollution Specialist, at (916) 327-8693 or by email at [cjakober@arb.ca.gov](mailto:cjakober@arb.ca.gov).

Further, the agency representative and designated back-up contact persons to whom nonsubstantive inquiries concerning the proposed administrative action may be directed are Ms. Alexa Malik, Manager, Board Administration & Regulatory Coordination Unit (BARCU), (916) 322-4011, or Ms. Amy Whiting, Regulations Coordinator, BARCU, (916) 322-6533. The Board has compiled a record for this rulemaking action, which includes all the information upon which the proposal is based. This material is available for inspection upon request to the contact persons.

This notice, the ISOR, and all subsequent regulatory documents, including the Final Statement of Reasons, when completed, are available on the ARB Internet site for this rulemaking at [www.arb.ca.gov/regact/2007/iacd07/iacd07.htm](http://www.arb.ca.gov/regact/2007/iacd07/iacd07.htm).

#### COSTS TO PUBLIC AGENCIES AND TO BUSINESSES AND PERSONS AFFECTED

The determinations of the Board's Executive Officer concerning the costs or savings necessarily incurred by public agencies and private persons and businesses in reasonable compliance with the proposed regulatory action are presented below and in specific detail in the Staff Report.

Pursuant to Government Code sections 11346.5(a)(5) and 11346.5(a)(6), the Executive Officer has determined that the proposed regulatory action would create costs to the ARB. The ARB is expected to incur ongoing costs of approximately \$175,000 per year for one additional staff and contract funds to implement the regulation and enforce compliance. Costs would not be created for any other state agency, or in federal funding to the state. The regulation would not create costs or mandate to any local agency or school district whether or not reimbursable by the state pursuant to part 7 (commencing with section 17500), division 4, title 2 of the Government Code, or other non-discretionary cost or savings to state or local agencies.

In developing this regulatory proposal, the ARB staff evaluated the potential economic impacts on represen-

tative private persons or businesses. The proposed regulation would affect the manufacturers, distributors, sellers, and consumers of portable indoor air cleaners if the products are marketed for sale in California. The potential economic impact of the regulations would primarily include the cost to test and certify air cleaning devices to meet the 0.050 ppm emission concentration standard for ozone. Additionally, all manufacturers of ozone generators and a few manufacturers of ESPs and ionizers that do not meet the emission limit would also need to redesign their products. Annualized costs for a typical small business (producing an average of three models of air cleaners) during the first five years are estimated to be between \$50,000 and \$179,000, and for a typical larger share company (producing an average of 6–8 models of air cleaners) are estimated to be between \$132,000 and \$357,000. These estimates include all aspects of certification, i.e., testing, labeling, redesign for those requiring it, and certification paperwork. The added cost to consumers is estimated to range from \$11 to \$16 per air cleaner. The total statewide cost to businesses and representative private persons or consumers to comply with the proposed regulation during its lifetime is estimated to be \$8,000,000, the cost to businesses, or \$12,100,000, the cost to consumers if compliance costs and a profit margin are passed on to consumers. Some small manufacturers may be impacted over the short-term due to costs for testing as well as the possible need for some to redesign certain models. The potential costs, however, are estimated to be insignificant. Costs are also expected to decline rapidly after five years because it is estimated that there would only be turnover costs for the introduction of new models. ARB believes that all of the potential economic impacts are either absorbable or would be passed on to consumers.

Because manufacturers are fully expected, and required, to comply with the regulations, enforcement costs to manufacturers should also be negligible.

The Executive Officer has made an initial determination that the proposed regulatory action would not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states or on representative private persons. Of an estimated 61 manufacturers of indoor air cleaning devices, two large manufacturers and at least two smaller manufacturers are based in California. All manufacturers of indoor air cleaning devices marketed for sale in California would be subject to the proposed regulations, so there should be no effect on the business competitiveness of the California-based manufacturers.

In accordance with Government Code section 11346.3, the Executive Officer has determined that the proposed regulatory action would not affect the cre-

ation or elimination of jobs within the State of California, the creation of new businesses or elimination of existing businesses within the State of California, or the expansion of businesses currently doing business within the State of California. Overall, the impacts should be absorbable. A detailed assessment of the economic impacts of the proposed regulatory action can be found in the ISOR.

The Executive Officer has also determined, pursuant to title 1, CCR, section 4, that the proposed regulatory action would affect small businesses. Some distributors and retailers of ozone generators are one- and two-person businesses where there may be significant impacts if their manufacturers decide to not seek certification for the California market.

In accordance with Government Code sections 11346.3(c) and 11346.5(a)(11), the Executive Officer has found that the proposal would establish no reporting requirements, but it would establish certain record keeping requirements. Under the proposal, businesses would have to maintain certain specified records relating to production, quality control, sales and testing for three years and make them available to the Air Resources Board upon request. The Executive Officer has found that these recordkeeping requirements are necessary for the health, safety, and welfare of the people of the State of California.

Before taking final action on the proposed regulatory action, the Board must determine that no reasonable alternative considered by the Board or that has otherwise been identified and brought to the attention of the Board would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

#### SUBMITTAL OF COMMENTS

Interested members of the public may also present comments orally or in writing at the meeting, and in writing or by e-mail before the meeting. To be considered by the Board, written comments not physically submitted at the meeting must be received **no later than 12:00 noon, September 26, 2007**, and addressed to the following:

Postal mail: Clerk of the Board, Air  
Resources Board  
1001 I Street, Sacramento,  
California 95814

Electronic submittal: <http://www.arb.ca.gov/lispub/comm/bclist.php>

Facsimile submittal: (916) 322–3928

Please note that under the California Public Records Act (Government Code section 6250 *et seq.*), your written and oral comments, attachments, and associated

contact information (e.g., your address, phone, email, etc.) become part of the public record and can be released to the public upon request. Additionally, this information may become available via Google, Yahoo, and any other search engines.

The Board requests but does not require that 30 copies of any written statement be submitted and that all written statements be filed at least 10 days prior to the hearing so that ARB staff and Board Members have time to fully consider each comment. The Board encourages members of the public to bring to the attention of staff in advance of the hearing any suggestions for modification of the proposed regulatory action.

#### STATUTORY AUTHORITY AND REFERENCES

This regulatory action is proposed under the authority granted to the ARB in Health and Safety Code section 41986. This action is proposed to implement, interpret and make specific sections 41985, 41985.5, and 41986 of the Health and Safety Code; and sections 91000 et seq. of title 17, subchapter 4 (Disclosure of Records) of the California Code of Regulations; 29 CFR 1910.7, 21CFR 801.415; section 201 U.S.C. 321.

#### HEARING PROCEDURES

The public hearing will be conducted in accordance with the California Administrative Procedure Act, title 2, division 3, part 1, chapter 3.5 (commencing with section 11340) of the Government Code.

Following the public hearing, the Board may adopt the regulatory language as originally proposed, or with nonsubstantial or grammatical modifications. The Board may also adopt the proposed regulatory language with other modifications if the text as modified is sufficiently related to the originally proposed text that the public was adequately placed on notice that the regulatory language as modified could result from the proposed regulatory action. In the event that such modifications are made, the full regulatory text, with the modifications clearly indicated, will be made available to the public for written comment at least 15 days before it is adopted.

The public may request a copy of the modified regulatory text from the ARB's Public Information Office, Air Resources Board, 1001 I Street, Visitors and Environmental Services Center, 1<sup>st</sup> Floor, Sacramento, CA 95814, (916) 322-2990.

## RULEMAKING PETITION DECISIONS

### DEPARTMENT OF INSURANCE

July 25, 2007

VIA FACSIMILE (310) 319-0156  
ORIGINAL VIA U.S. MAIL

Zahirah Washington  
STRUMWASSER & WOOCHEER  
100 Wilshire Boulevard, Suite 1900  
Santa Monica, California 90401

Re: Decision on Petition for Rulemaking to Amend  
10 CCR § 2697.6 and 2697.61

Dear Ms. Washington:

On June 26, 2007, the Insurance Commissioner of the State of California received a petition from you on behalf of the California Earthquake Authority ("Petitioner"). Petitioner, pursuant to Government Code section 11340.6, requested that the Commissioner undertake rulemaking proceedings to amend the regulations that specify the coverages available for basic residential earthquake insurance policies and additional requirements concerning the sale of such coverages. The Commissioner hereby grants the Petition for Rulemaking.

Petitioner has requested amendments to California Code of Regulations, title 10, sections 2697.6 and 2697.61, entitled "Earthquake Policies, Coverage Types and Limits" and "Additional Requirements for Offer of Optional-Limits Basic Residential Earthquake Insurance Policies," respectively. The circumstances detailed in the Petition support amending these regulations. Pursuant to Government Code, section 11340.7, the Commissioner intends to schedule this matter for public hearing in accordance with the requirements of Article 5 of the Government Code (commencing with section 11346). Interested persons may obtain a copy of the petition from, or direct questions to, me.

Sincerely,

/s/  
Lisbeth Landsman-Smith  
Staff Counsel

cc: Daniel Marshall (CEA)

DEPARTMENT OF PUBLIC HEALTH

July 23, 2007

Mr. Michael J. Arnold  
Legislative Advocate  
California Clinical Laboratory Association  
1127 Eleventh Street, Suite 820  
Sacramento, CA 95814

Re: Repeal of Title 17 California Code of Regulations Section 1050; and Suspension of Enforcement Pending Repeal

Dear Mr. Arnold:

Thank you for your letter of June 7, 2007, in which you petition the Department of Health Services (Department) to repeal Title 17 California Code of Regulations section 1050 and suspend enforcement of the regulation pending repeal. Such Petition is made pursuant to Government Code section 11340.7. I am responding to your petition.

The Department has given consideration to your Petition in accordance with Government Code section 11340.7. We agree that section 1050 has been unable to keep up with the advances in clinical laboratory technology and was superseded when CLIA was adopted into California law. We therefore grant your Petition to repeal this section. The matter will be scheduled for public hearing in accordance with the notice and hearing requirements of Article 5 of the Government Code (commencing with section 11346).

Regarding suspension of enforcement pending repeal, the department is required to enforce its laws; both the statutory requirements assigned by the legislature, and the regulations adopted by it. Any laboratory in violation of this section would therefore be subject to sanctions.

Pursuant to Government Code section 11340.7(c), any interested person may request reconsideration of any part or all of the Department's decision regarding this Petition no later than 60 days after the date of this letter.

A copy of this letter will be sent to the Office of Administrative Law for publication in the California Regulatory Notice Register, pursuant to Government Code section 11340.7(d). A copy of the Petition will be provided upon request.

Sincerely,

/s/  
Cindy Lloyd  
Senior Counsel

SUMMARY OF REGULATORY  
ACTIONS

REGULATIONS FILED WITH  
SECRETARY OF STATE

This Summary of Regulatory Actions lists regulations filed with the Secretary of State on the dates indicated. Copies of the regulations may be obtained by contacting the agency or from the Secretary of State, Archives, 1020 O Street, Sacramento, CA, 95814, (916) 653-7715. Please have the agency name and the date filed (see below) when making a request.

BOARD OF EQUALIZATION

Works of Art and Museum Pieces for Public Display

This change without regulatory effect for processing under section 100 proposed by the State Board of Equalization amends Title 18, section 1586 to be consistent with the changes made by Assembly Bill 2533 (Ch. 281, Stat of 2006) which amended Revenue and Taxation Code section 6365. AB 2533 expanded the exemption for original works of art to include those leased from one nonprofit organization to another nonprofit organization for 35 years or more and clarifies that items of clothing or personal adornment may be original works of art. The revisions to 1586 are to make the regulation consistent with the statutory change.

**COMMISSION ON PEACE OFFICER STANDARDS AND TRAINING**

Incident Command System Training for Response Personnel and Training Instructors

Homeland Security Presidential Security Directive-5 (Managing Domestic Incidents) and Government Code section 8607 require specified training for all first responders and trainers in the use of the National Incident Management System (NIMS), the Standardized Emergency Management System (SEMS), and the Incident Command System (ICS). This regulatory action creates a 16-hour ICS 300 & 400 Course for Response Personnel that will be the standardized course for peace officers and first responders at rank of first-line supervisor through command staff who may be tasked to respond to an emergency incident and a 24-hour ICS 300 & 400 Train-the-Trainer Course for Response Personnel that instructors must complete prior to delivery or presentation of the 16-hour response course. The regulations identify the minimum curriculum content that must be included in both the response and instructor courses.

**DEPARTMENT OF HEALTH SERVICES**

Lists of Reportable Diseases and Conditions

The Department of Health Services is amending the captioned sections. Health and Safety Code section 120130 states that the list may be modified at any time by the Department of Health Services, after consultation with the California Conference of Local Health Officers. The California Conference of Local Health Officers approved the addition on June 1, 2006. Health and Safety Code section 120130 further states that the aforementioned modification is exempt from review by the Office of Administrative Law, shall be implemented without being adopted as a regulation, that the revised list should be filed with the Secretary of State, and that said revised list should be printed in the California Code of Regulations (CCR). The captioned modifications

were filed with the Secretary of State's Office on June 12, 2007. Due to inconsistencies with the CCR the Department of Health Services through the Office of Administrative Law is filing an amended filing for the captioned modifications on July 30, 2007.

**DEPARTMENT OF JUSTICE**

Electronic Recording Delivery Systems

The Electronic Recording Delivery Act of 2004 requires the Attorney General to develop, certify, regulate, and oversee an electronic recording system. The purpose of the system is to allow County Recorders to establish a limited and specified type of electronic recording alternative for recording deeds and other instruments affecting title, right, or interest in real property in California. This filing is the resubmission to OAL of a regulatory action implementing this statutory directive.

#### DEPARTMENT OF MOTOR VEHICLES

##### Clean Air Vehicle Stickers

This is a change without regulatory effect to Title 13, Section 156.00(a). The current regulation requires the applicant to complete an Application for Clean Air Vehicle Stickers, form REG 1000 (Rev 9/2005). This form was revised in May 2007 to delete the document execution statement from the form and to amend the applicant certification (Section C). The change to the regulation will amend the form REG 1000 revision date currently in the regulation from 9/2005 to 5/2007.

#### MANAGED RISK MEDICAL INSURANCE BOARD

Trailer Bill Regulations for AIM and HFP Programs (AB 1807)

Assembly Bill 1807 (Chapter 74, Statutes of 2006), the health programs trailer bill for the 2006-2007 Budget Year, identified a number of changes to both the Healthy Families Program (HFP) and the Access for Infants and Mothers (AIM) programs. This emergency regulatory action implements those changes and makes other changes to the regulations governing those programs. Pursuant to Section 75 of AB 1807, the adoption and one readoption of regulations to implement certain specified changes in AB 1807 are deemed an emergency and "...the Managed Risk Medical Insurance Board (MRMIB) is hereby exempted from the requirements that it describe specific facts showing the need for immediate action and from review by the Office of Administrative Law."

#### SUPERINTENDENT OF PUBLIC INSTRUCTION

##### School Community Violence Prevention Grant Program

In this regulatory action, the Superintendent of Public Instruction and the Attorney General's Office adopt regulations implementing the school safety consolidated competitive grant provisions of Education Code sections 41510 through 41514 by establishing the "School Community Violence Prevention Program" and the competitive grants available to local education agencies under that program. This action is a Certificate

of Compliance (with amendments) for emergency regulations previously establishing this competitive grant program.
